

YOUTH NEEDED TO ADVISE SANCTUARY COUNCIL

The *Monitor* National Marine Sanctuary is seeking entries from youth between the ages of 14-17 to serve on a Youth Working Group.

The purpose of the group is to advise the Sanctuary's Advisory Council on how best to convey the message of ocean conservation to the youth of today.

Members of the Youth Working Group would participate monthly in meetings with other youth and council members and present their ideas and findings to the full council from time to time.

This is a great opportunity to be involved in helping to make our oceans a better place for all.
